

DAY OF HOPE

HOW TO THRIVE IN A COMPLEX WORLD
With award-winning speaker Glen Gerreyn

DAY OF HOPE

As a teacher, you know it more than most: Life is a challenge for young people today.

Modern teens are living in and set to inherit an increasingly complex world. Thanks to social media, climate change, rapidly evolving technology and constantly changing political landscapes, nothing feels stable.

It's no wonder many teens struggle to find a sense of identity, let alone any purpose in life.

The Hopefull Institute recognises how much young people are in need of a voice of positivity and a role model who reminds them to dream big, set goals and just go for it, no matter what. We created the Day of Hope motivational presentation for teenage Australians to hear this message in an engaging and inspiring way.

Available to schools across Australia, this powerful five hour presentation helps students understand the effects that external influences and their own self-belief has on their decisions.

ONE DAY

3 LIFE-CHANGING CONCEPTS

THE POWER OF PURPOSE

The Power of Purpose encourages students to pay attention to their talents and character strengths as they consider what they really want.

Teens finish this session with a list of ideas and possibilities for the future and a reinforced belief that they can reach their goals.

JAILBREAK

This module explores how today's students can transform their wellbeing and overcome their limiting beliefs.

This session plays an essential role in re-empowering youth by breaking the cycle of apathy many teenage students find themselves trapped in.

UNSTOPPABLE

Students learn the power of setting 'moonshot' goals , to help solve large scale problems.

Glen's 'Unstoppable' message arms students with the courage and hope they need to face challenges, pick themselves up and keep going in the face of adversity.

DAY OF HOPE IS AN ESSENTIAL PRESENTATION FOR AUSTRALIA'S YOUTH

Compelling and thought-provoking, this seminar is presented with energy, empathy and warmth. Even the most reluctant of participants will tune into every message as Glen shares the extreme personal challenges he overcame as a young man and clearly explains how to master the lost art of grit, optimism, courage and hope.

WHAT THEY SAY

Glen's motivational presentation has been attended by students around the world, with many confessing afterwards that his message couldn't have come at a better time.

"You told us all we were important. That hit home for me that minute. I was holding back tears; to be told you are important is something everyone should be told... not just once but many, many times. I have been called pretty, nice, smart etc. But being called important really hits a heartstring."
– Year 10 Student,
Kingscliff High School

"I couldn't seem to pick myself back up and keep looking forward into the future to where I want to be but hearing your talk to the Grade 11's and also by you sharing your story with us, I can see that no matter what happens in life, overcoming is possible."
– Year 11 Student,
Loreto College

"After your talk I felt so inspired. You told me that I could do anything. Because of you, I now have a school based apprenticeship with JNC Constructions. Without your talk, I don't think I would be here today. Thank you from the bottom of my heart."
– Year 11 Student,
Brisbane Boys College

"I am now filled with so much hope that I can fit these pieces back to create a better me. Thank you again and again for everything. You pulled a mirror in front of me and forced me to have a good look at myself. I believe I can become a better person because of it."
– Year 11 Student,
Ravenswood

YOUR PRESENTER

Former Young Australian of the Year (Qld, Community Service) and popular High School Speaker Glen Gerreyn gives teenagers the foundations they need to build a hope-filled future.

As Glen shares his story and his message, the young people in the audience learn to recognise negativity, step away from it and start making choices that allow them to shine. They leave with a refreshed energy for life and a renewed understanding of their limitless potential.
